

Despite an Eye issue, I preferred to address a gathering of more than 250 Entrepreneurs being organized by **Mr. Vivek Bindra** in New Delhi.

The questions were never-ending as always. The biggest problems of MSMEs were:

01. Nonavailability of Timely and Adequate Finance

02. Delayed Payments from their Buyers.

I assured that we will soon have a full day event to find out solutions of both these problems.

Please comment if you also have the same problems.

Also let me know one if the other biggest problem being faced by **MSMEs and Startups.**
